

FILTERMAX FILTRATION SERVICES LTD

REPLACEABLE PAD FRAMES

This heavy-duty steel frame is designed for a wide range of uses where use of a disposable card framed panel filter is unsuitable due to conditions.

Because only the media pads are replaced, this has major cost-saving benefits as well as greater ease of disposal.

Glass Fibre

Common uses include

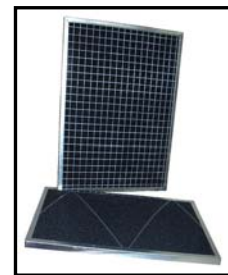

As a pre-filter to protect and extend the life of higher efficiency filters. Ideal for use with glass fibre or synthetic pads where moisture prevents the use of a card framed panel filter

Synthetic

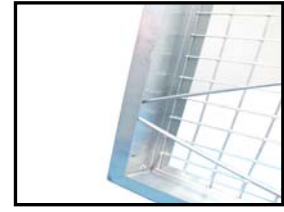

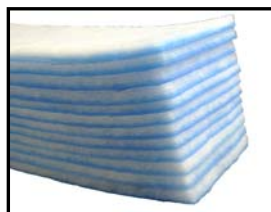

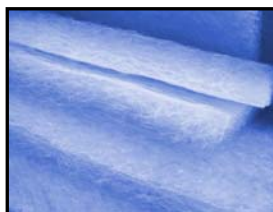

Washable foam pads or disposable synthetic pads

Glass fibre pads are an economical and easy solution to paint over spray

Foam

Depths ranging from 10mm to 50mm in galvanized steel. Replacement filters available as rolls or pre-cut pads (see separate literature)
